---

**Name: Cindy Mogford**

**Make/Model of Vehicle: 1992 Pontiac Bonneville**

**Type of unit used: Gas**

### **Testimony:**

**I have a 3.8 litre front wheel drive Bonneville. Prior to installing the Tadger my fuel consumption average city/highway was 8.75 L/100km. After installing the Tadger my fuel consumption is 7.83 L/100km. This represents a savings of 10.5%. The pre Tadger results were tracked over 6000 km while the post Tadger results were tracked over 10,000 km. The post Tadger tracking of 10,000 km is required to allow for the full effect of the clean burn process.**

**As a businesswoman, it's better in my pocket than the Gas Station owners' pocket.**
