**Name: Stevens Transport Ltd.**

**Year: 2001 Peterbilt**

**Make/Model of Vehicle: Cummins 460 HP, N14 Smarttorque**

**Type of unit used: Diesel**

**Testimony:**

**We installed a diesel TADGER on this vehicle in September.**

**We picked this one because it ran a consistent route daily, pulling heavy loads.**

**We tracked the mileage diligently, before and after, to see how real the TADGER claims were.**

**Our driver noticed that the vehicle had more “pull”**

**Our mileage went up by 0.8 to 1.0 mi/gal. Depending on the weight of the load.**

**This works out to a savings of 11 to 15% on fuel.**

**We are ordering more.**
