MEMORANDUM

DATE: August 9, 2006
MEMO TO: Whom it May Concern
FROM: David Rigg
RE: Tadger Group International

We are extremely pleased to share the results of our trials with the TADGER Fuel Saving Device.

After engaging in a structured test protocol using the ECM from one of our Detroit Series 60 engines and the DDEC software to track mileage, we realized a fuel savings exceeding 4%.

We were impressed with the professionalism of TADGER Group International as well as their test procedures.

I would highly recommend this product to anyone looking for not only fuel savings but emission reductions as well.

We look forward to outfitting the remainder of our fleet.
