

# MCQ HANDLING INC.

• WASTE MANAGEMENT •

Dear Tadger Group

We have benefited considerably from the 5%+ fuel savings as a result of installing Tadgers on all of our trucks. I am also proud of the reduction in exhaust gases and soot that our vehicles have experienced.

The services provided by Tadger Group have been very professional and the product delivered precisely what was claimed at the outset.

We feel this was a very positive step in reducing our bottom line while helping the environment.
