

The TADGER Group

E-mail: support@tadgergroup.com Web site: www.tadgergroup.com

Name: Mark T.

Make/Model of Vehicle: 1986 Honda shadow 1100cc Motorcycle

Type of unit used: Gas

Testimony:

I own a 1986 Honda shadow 1100cc motorcycle.

I was getting approximately 35-38 mpg.

I recently installed the TADGER on my motorcycle, it was very easy to install. I could not believe the mpg increase and the horsepower increase.

The mpg went up to 48-52 mpg, the acceleration increased substantially and the top speed increased too.

I would highly recommend using the TADGER on any vehicle.
