

The TADGER Group

E-mail: support@tadgergroup.com Web site: www.tadgergroup.com

Name: Dirk Jansen

Make/Model of Vehicle: 1994 Cadillac STS

Type of unit used: Gas

Testimony:

I have a 4.9 litre front wheel drive Cadillac. Prior to installing the Tadger my fuel consumption average city/highway was 12.3/11.5 L/100km. After installing the Tadger my fuel consumption is 10.5/10.0 L/100km. The city driving savings are 14.6 % while the highway savings are 13 %. The post Tadger results was taken after 30-40 days of installation. On a big V8, these are significant savings.

As a businessman, the bottom line is the bottom line!
