Re: TADGER results on a 1998 Toyota FourRunner

I would like to take this opportunity to thank you for introducing me to your product.

I drive a 1998 Toyota Fourrunner with the 3.4 lit. V6. Prior to installing the tadger I was averaging 450km per tank, after install I now average 550km per tank. This is a considerable savings for me as I am a college student.

I would recommend your product to anyone.

Thanks again.

ADAM VANPASSEN
