

Tadger Group Gas Install Instructions for Kit #:

D4-HB-4, D5-HB-4, D6-HB-4

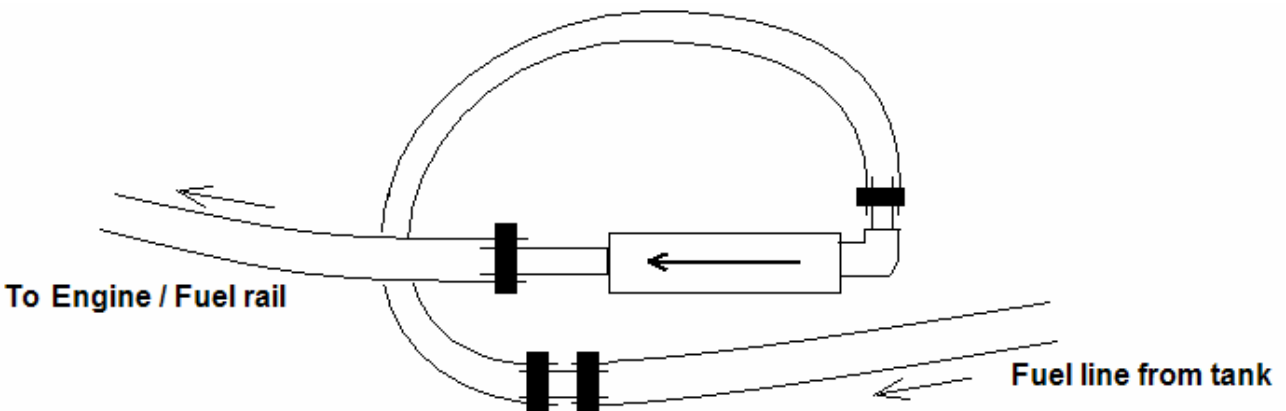

ORIGINAL ENGINE FUEL LINE SETUP

TADGER KIT

INSTALLATION

1. Locate flexible fuel feed line as close to the engine as possible.
2. After reviewing all instructions, determine a suitable place to cut fuel line hose near the engine that will allow Tadger kit to form a "loop".
3. Insert head of kit into end of fuel feed line leading to engine.
4. Loop tail around and insert tail into fuel line from tank.
5. Check to make sure there are no kinks or sharp bends in hose. Tighten all 4 clamps.
6. Tie off Tadger kit securely with ties to minimize movement. It does not require a solid mounting bracket. Use loom or rubber to separate components at any point where rubbing may occur.
