John Mogford  
Tadger Group

Greeting John,

I accepted a job at U-Hual on Barton St. East in Hamilton last week. With the craziness of gas prices and a 95 km. return run everyday it was a difficult decision. There's not much doing in St. Kitts and I cannot afford to waiting on Casino Niagara.

The performance of my car with the Tadger is biggest factor in doing this drive. The motor extremely well on the recent E Test , I continue to get far better fuel economy than before and continue to be amazed at how clean the inside of the tailpipe is since Grant installed my Tadger . I have never owned a car that runs this clean. ThanXXX!  
Tadger.

My brother Bill is going to contact you about a Tadger for his GMC 3500 truck before they leave for snow birding next month.

I continue to rave about the benefits of the Tadger whenever the subject of gas prices comes up in conversations. Please mail me some of your business cards to help people connect with you.

Take Care ....
