To Who It May Concern

Re: Emission Reduction Program

Recently, the Town of Richmond Hill Fire Department initiated an Emission Reduction Program by installing an emissions improvement product from the Tadger Group. We have been very happy with the results having experienced emission reductions up to 57.3% in diesel engines.

These results are well received as they will positively affect the health and safety of our firefighters and prolong the life of our vehicles.

If you have any questions regarding our use of this product please feel free to contact he undersigned.

Sincerely,

Shane K. Baker
Fire Chief
